

International Symposium on
Application of Stem Cell Technology in Health Industry
Shangrao China 22-25 November 2018

Dear Colleagues,

On behalf of the organizing committee we would like to welcome all participants to Shangrao China for the International Symposium on Application of Stem Cell Technology in Health Industry.

This Forum is jointly hosted by China National Stem Cell Engineering Research Center (NSCERC) and Shangrao Municipal People's Government, co-organized by Overseas Chinese and Foreign Affairs Office of Shangrao Municipal People's Government, Shangrao International Medical Tourism Pilot Zone Administrative Committee, Jiangxi Health & Biotech Stem Cell Technology Co., Ltd.

This Forum is aimed to provide a platform for stem cell translational medicine and regenerative medicine industry. Conference topics include the following:

- Stem cell basic research and tissue engineering;
- Clinical translation of stem cell therapy;
- Industrialization of stem cell and tissue engineering;
- Progress of immune cell therapy;
- Clinical application status of precision medicine.

Conference date: 22 - 25 November 2018

Conference venue: Shangrao, Jiangxi Province, China

Official conference Language: English, Chinese

Conference Chairmen: Zhongchao Han

Meeting agenda

November 22 nd , 2018	November 23 rd , 2018 (High-tech Project Promotion)		November 24 th , 2018 (Academic Reports)	
Registration 8:00-20:00	8:30-9:00	Opening Ceremony		
	9:00-12:00 (10:30-10:45 tea break)	Theme: Shangrao International Medical Tourism Pilot Zone promotion and project signing ceremony	8:30-12:00 (10:30-10:45 茶 歇)	Theme: Research progress of stem cell and regenerative medicine
	12:00-13:00	Lunch	12:00-13:00	Lunch
	13:00-17:00 (15:30-15:45 Tea break)	Visit of stem cell research base, health promoting projects roadshow	13:00-17:00 (15:30-15:45 Tea break)	Theme : Clinical application of stem cell, immune cell and precision medicine
	17:30-20:00 dinner
